

## WIND POWER **ARRECIFE**

**LOCATION** ▶ Lanzarote. Canary Islands (Spain)

**CUSTOMER** ▶ Insular de Aguas de Lanzarote (INALSA)

**PROJECT SCOPE** ▶

Supply and installation of wind turbines, construction of access points, civil works, auxiliary installations and medium-voltage power transmission line for the wind farm, with a power capacity of 9.2 MW

**AMOUNT** ▶ EUR 11 million

**START DATE** ▶ october 2019

**FINISH DATE** ▶ august 2020

**CHARACTERISTICS:**

- ▶ Power capacity: 9.2 MW
- ▶ Wind turbines: Four 2.3 MV Enercon E-70s
- ▶ Hub height: 85 m
- ▶ Rotor diameter 71 m
- ▶ Height: 120 m (including blades)
- ▶ Expected output: 28,605 MWh/year
